LOCAL ITEMS.

BULLION SHIPMENT. Wells, Fargo & Co.'s Express Company, For the week commencing Sept. 16.

KEEPING Coof. - There is nothing like keeping cool under any and all circumstances. John Connerton not only keeps cool himself, but puts all his customers in the way of doing the same thing. He has a very handsome ice-cream saloon on Panaca Flat, and also serves customers on the street or at their residences and places of business. His vehicle will be recognized by a full-sheet poster an-nouncing the appearance of the Recogn as a daily. Connerton is about erecting an ice-house in town of 200 tons capacity, and he intends putting up 1,100 tons this winter at his pond in Rose Valley. He promises to furnish ice next summer at lower rates than heretofore. Connerton is an indefatigable worker, and ought to succeed well.

BISHOP BROS. have just received a large and fine assortment of Perfumery, Toilet and Fancy Articles, such as Ferina, Pinaud and Wright's Colognes, Lubin's and Phalon's Extracts, Elorida Water, Pomades, Hair Oil, Cold Cream, Creme de lis, Laird's Bloom of Youth, Bazin's Tooth Paste, Steinberger's Glycerine, Honey and Elder Flower Soap, Lubin's Soaps, etc., etc., etc., which, together with a full stock of Chemicals and Medicines, they are selling at the lowest market prices.

MINING TAX .- The mining tax collected by the County Assessor was from the Bowery \$725;44; Pioche, \$1,990.55; Mendow Valley, \$4,643.26; Raymond & Ely, \$23,230.28-n total of \$30,589.53, It will be noted that the Raymond & Ely Company paid a tax amounting to nearly four times as much as the other companies combined, though the Meadow Valley and other companies from up well. The Meadow Valley having spent a large sum in prospecting made the ex-penses much larger than if the company confined itself exclusively to tracting ore. Next quarter it will do The Raymond & Ely much better. Company is doing a great deal to reduce taxes, and its large payments quarterly night soon to wipe out our county debt.

PIGCHE CHAMPION.-The Superintendrnt of this mine; D. Wattelet, has a contract to let to sink a straight shaft 300 feet. This shaft will be sunk about 130 feet above the old one, which is so full of foul air that it is almost impossible for men to work in it; but the Superintendent intends to have a fan placed in it lo-day, so that the miners will hereafter be supplied with pure air. The mine is looking well, and we expect good reports from it soon.

Faurt .- We were yesterday the recipient of a lot of superior fruit from our old friend John B. Fenn, whose stand is on Mendow Valley street, near the corner of Main. Jack is in daily receipt of fruits of all kinds from both Utah and California. He has also a supply of tobacco and cigars, besides various other articles. He had the misfortune to lose a leg in a mill at Eberhardt some months since, and has adopted his present avoextion as a means of sustaining himself

Wilson & Solomons, in Pulks & Mc. Alpin's saloon are in constant receipt of full supplies of news matter of all kinds from the East and West, and stationery like Pioche. of every variety they keep always on hand. They also make a specialty of ci-gars and robaceo and their brands of these articles are not surpassed by any firm in town .. For the accommodation of the reading public they also keep a fine circulating library.

WHEELER & Co. have connected pipe with the main water pipe of the Floral Spring Company, which has been run under their building to the rear and then to the top of the house and five feet above. They have also a connection made in the rear of McCluskey's saloon for the purpose of supplying the bar with water. A hose is attached to the pipe on top of the building and can be used with good effect on the surrounding wooden buildings in case of fire.

JAMES W. WRIGHT, well and favorably known to the business men of Pioche, has been appointed Superintendent of the Chief the Hill, to succeed R. B. Ross. Work on the mine will be con-Ross. Work on the mine will be con-tinued with no abatement of vigor in de-veloping its richness and in bringing ore

SOMETHING FOR MINERS,-We would call the attention of mining foremen and superintendents in Fly District to a hew pocket pay table book, by means of which results can be arrived at instantly. The number of days having been ascertained the amount will be found directly opposite that number, already computed. Call at Wiederhold's and examine them.

THE Hamilton stage arrived about 5 p. m. yesterday, crowded with passengers and freight. This is additional evidence that a daily line is needed at once. No doubt there will be an immense travel over this route the present fall and winter, and stage companies should look to their interests and the comfort of travelers by increasing their facilities immediately.

ATTEND to your teeth; don't wait until they ache and then in language of regret say you would give most anything to save them. Go at once to Dr. Nichols, Main street, and avoid sleepless nights. Save your stock of patience and, what nature intended, your teeth.

Naw Longing House. - Mrs. Pyle has commenced the erection of a fine twostory lodging house on Main street, a short distance above the RECORD office. It will be finished in a short time, and

town. Mrs. Pyle intends to keep a first-class house, where lodgers will find everything nest and clean.

ARRANSAS MINE.—The whole face of the west drift at the 250 foot level is a mass of ore which assays between \$300 and \$400, and is 31/4 feet wide. Ore is being taken out as fast as possible from this drift. The incline is now down 275 feet and the ledge looks No. 1 at that depth and retains a uniform width of three feet. Any one, on application to the Superintendent, can obtain a permit to go through this mine and judge for themselves.

STOCKS .- There is such an unprecedented demand for Pioche stocks that it keeps our two banks and J. B. E. Cavallier busy all the time to attend to it. Parties having money know that investments in the mines here are bound to bring good returns, and that there is no such word as fail to be used in connection with the mines of Ely District.

· In ALL CASES, of whatever nature, Dr. D. H. Whipley goardutees a sure cure. In cases of venereal diseases, piles of long standing, chrotile diseases, etc., a cure is effected without the use of mer cury. He cures piles in a short space of time. Consultation strictly confidential. Office at Mrs. Pyled's Lodging House-Room No. 5.

SULTAN MINE .- This mine is situate about 400 feet from the sheft of the Penvine, and is doubtless on the same vein. The shaft is 100 feet deep with ore in sight that assays \$200 to the ton. They have on the dump several tons of good milling ore. The prospects are favorable, when properly developed, for the Sultan becoming a productive mine.

A CIBCULATING LIBRARY affords a chesp means of obtaining good reading matter, and at a triffing expense. C. Weiderhold furnishes novels and standard works for 25 cents. He also keeps on hand stationery, cigars, tobacco and smokers' materials. His establishment is on Main street, opposite Meadow Valley. se8

STATE VS. MORGAN COURTNEY .-- This case is still on in Court, and the prospect is that it will take the balance of the week to finish up. The jurors are locked up every night, and no outsiders are permitted to communicate with them. From their appearance, we think they would rather be elsewhere than on the jury.

Sick .- Cy. Curtis, our County Assessor, has been indisposed for a few days past, with what the doctors pronounce a congestive chill. He was considerably better last evening, and able to get around. We hope to see his health fully restored soon.

TRAVIS BROS, are up with the times in the livery business. In addition to their establishment in this place, they have an exchange stable at Builionville. Patrons will be properly served at either estab-1.shment.
